Achieve Research

- Learning is everything,
- Action research from my perspective of being a teacher in the full meaning is the key topic in teaching
- I am a teacher for Asha
- I should try to teach Asha reading, writing, and arithmetic plus biology, geography, science, art, music, etc.
Self-study in the cobol case:

1. Introduction
2. Context
2.1 Simulation process
2.2 The organisation
2.3 Design the QAS

- GTD part of the design?
- Meaning the cost of my own work?
- Customers and stakeholders? Happy? Satisfied?

2.4

2.8 Self-study framework (ISO 9000),

3. Methodology
4. The project — implies test of hypothesis
5. Discussion of findings

- explore alternative ways to get other fact

and why and ideas on what to do in order

to improve the situation.

6. Conclusion
EFQM research

1. Introduction
   The question is not made too well... Some people support EFQM, no EFQM level?

2. Context
   They and include research surveying EFQM
   The Management Method: use

3. Methods
   The EFQM assessment outline

4. EFQM assessment criteria

5. Discussion of findings
   What are the strong points and weak points
   Why are they like that?
   What could be done in order to improve?
   What does this imply for THEORY?

EFQM is only one assessment parameter. The most important part of Management Method.

6. Conclusion
