To Dr. X - leaving soon. Sundeeep

It is easier to visualize abstract than to visualize technical details.
Each paper should contain a story, and this should help me to understand the total problem(she is and RE/RA and hypothetical at hand,

What is the scaffolding in Cheg's case?

Implementation:

1) We have a shippin
2) We use step by step eighteens
   ("the goal")
   help
   enter into local

I also notice that drawing simple "rich pictures" helps in understanding the problem.

Perhaps I could also draw a "rich picture" for understanding the solution.
