My approach:

Team double loop learning

Research design

"mixed approach"?

Problem = ?

Solution = ?

Self-management

ISO 19001:2002
Agnomic himself suffer long?

→ focusing on the same problem in all his remarks?

Not scared of consequences properly?

→ Model II

Why was he like that?

How could he be?

Why didn't his appeal reach other teachers?
Second-order regulator.

The controller as part of the system.
$$31 + 28 + 1 = 60$$

$$-10,428$$

This is abnormal and LFP

Rate

$$VFOS = -6.78$$
