- Analysis + Design
- Design
- Model

Notes:
- "System & context theory" as models
- As system types
- Implies
- Debris analysis
- Typing
The purpose of category theory

= Understanding structure.

1) iso maps (isomorphism)

2) linear transform

\[ \mathbb{R} \xrightarrow{\text{linear}} A \]
\[
\text{Monoids} \rightarrow \text{category theory} \rightarrow \text{monoids}
\]

\[G \xrightarrow{\phi} G'\]

\[\phi(c) \circ \phi(b) = \phi(c \ast b)\]

\[A \xrightarrow{f} B \xrightarrow{g} C\]
